Squeegee	:	Soft-Medium Durometer
Stencil	:	Water-resistant
Wash-up	:	Water / Mild detergent
Reducer	:	Water upto 2-3%
Curing / Fusion	:	320° f /160° C

Application:

Texaprint M-90B is thick highly covering paste specially prepared for Rotary printing m/c. for producing Brilliant color prints, the printed shades are very Bright with excellent fastness and stretchability for knitted fabric required fixcer is to be added before printing.

Pot life of paste after adding Fixcer is around 8 -10 hrs.

Care must be taken to check the required fastness properties before production as fastness varies on different fabrics also finish on the fabric affect the fastness.

Shelf life: Texaprint is not subject to a particular limitation of its shelf life, as the ink contains water. It must be protected from fungus. We recommend to close opened cans very thoroughly.

Mix well before use.
